

**Enrollment is limited,
so register soon.**

Who Should Attend?

- ⇒ Planning Practitioners
- ⇒ State Agency Staff
- ⇒ UW-Extension Educators
- ⇒ Non-profit Leaders
- ⇒ Resource Professionals
- ⇒ ...And others who help assist citizen planners and local decision-makers.

Why Attend?

This is your chance to help the DNR and others working with citizen groups evaluate a variety of planning tools.

At this workshop, you will learn about tools for predicting land use impacts and help technical assistance providers evaluate the relevance of these tools to citizen planning activities.

Five exciting impact assessment tools will be demonstrated and participants will have several opportunities to interact with their creators. Hands-on exploration will be facilitated to increase understanding of the tools and to uncover opportunities for their use in local communities.

CHANGING LANDSCAPES 2: Anticipating the Effects of Local Land Use Decisions

**A workshop to review and
provide expert opinion
on the usefulness of
impact assessment tools.**

January 22 & 23, 2004

**The Pyle Center
University of Wisconsin
702 Langdon St.
Madison, Wisconsin**

Tool Demonstration

Five different decision support tools will be demonstrated in seventy-five minute interactive sessions. Impact assessment models covering various facets of growth-related decisions will be profiled. The tool presenters (often the creators) will use real-life examples to demonstrate the applicability of tools to local land use decisions in Wisconsin.

Panel Discussion

Hear real-life examples of how decision support tools have been used in local planning processes in Wisconsin. Local officials, resource advocates and citizen planners will describe how the use of decision support tools has affected the way natural resources are managed and protected. Come ask questions and hear suggestions to successfully include impact assessment in your own planning process.

Tool Evaluation

Participants will have the opportunity to apply an easy-to-use evaluation system to each tool at the end of each demonstration. You will be asked to evaluate the tools based on a list of criteria and then assess the tools' applicability and usefulness for local decision making. Results from the evaluation will assist in future training efforts and will be used by tool developers to enhance their products.

Interaction with Tool Developers

There will be plenty of time for attendees to interact with the tool developers and presenters, during both demonstrations and networking opportunities. There will be a reception at the end of day one where attendees can interact with each other, ask questions of tool developers, and view informational displays.

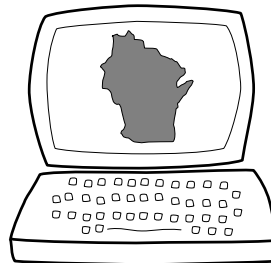

Tentative Agenda

Day One, January 22:

8:30 – 9:00	Sign in and registration
9:00 – 9:30	Opening remarks
9:30 – 10:30	Plenary session
10:30 – 10:45	Morning break
10:45 – 12:00	Tool presentations
12:00 – 1:00	Lunch, on your own
1:00 – 2:15	Tool presentations
2:15 – 2:30	Afternoon break
2:30 – 3:45	Tool presentations
3:45 – 4:50	Panel discussion
4:50 – 5:00	Wrap up
5:00 – 7:00	Networking reception

Day Two, January 23:

8:30 – 9:45	Tool presentations
9:45 – 10:00	Morning break
10:00 – 11:15	Tool presentations
11:15 – 11:45	Wrap up
11:45 – 12:45	Hands-on tool use

Registration is \$20 and is required by January 15, 2004.

Enrollment is limited to the first 200, so please register soon.
